

North Counties' Relief Fund

North Counties' Family Services has been supporting individuals, families, and children through the Darrington Family Support and Resource Center since 1993. Staff and volunteers live within the community and recognize those impacted by the 530 Slide as friends, families, and neighbors. When the 530 Slide occurred, North Counties' established a separate account under its 501c3 to support the survivors of the slide.

To date, mortgage and rent payments for survivors of the mud slide (primary wage earners lost) have been paid; over \$4,000 for clothing and boots for our volunteer loggers has been dispersed; 270 confirmed employees who have added 150+ miles to their commute are receiving transportation supports (over \$100,000 month). Surviving family members are receiving help to go back to school, and food and other household bills are being financially supported (phone, taxes, heating costs, water/garbage, etc.).

We are humbled and grateful by the donations being offered to support our community's most impacted as together we move forward in rebuilding lives and communities.

Thank you for all you are doing,
Wyonne
